SUMMARY

Data Analyst with experience in SQL, Python, and data visualization tools like Tableau. Skilled in data cleaning, exploratory data analysis, and building dashboards to derive actionable business insights. Strong background in software development with experience on analytics-driven products.

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Visualization:** Tableau
- **Tools:** Excel, Google Sheets, Jupyter, Google Colab
- **Other:** Statistics, Data Cleaning, EDA, Dashboarding

PROJECTS

Aviation Wildlife Strike Risk Analysis & Safety Optimization

Tools: Python, Google Sheets

- Built a data analytics capstone on aviation safety using wildlife strike data (9,999 records) with Google Sheets; performed data cleaning, feature engineering, KPI design, and created an interactive dashboard to identify high-risk damage patterns.
- Conducted EDA focusing on flight phases, engine ingestion, seasonality, weather conditions, and airport hotspots to uncover key drivers of aircraft damage and operational risk.
- Developed dashboard views covering damage by flight phase, monthly/annual trends, engine ingestion impact, and environmental risk factors, delivering actionable recommendations for proactive mitigation and cost reduction.

Airline Passenger Satisfaction Analytics

Tools: Tableau, Python

- Built an end-to-end data analytics project on airline passenger satisfaction using 23K+ reviews; identified key drivers of dissatisfaction and delivered data-backed improvement strategies.
- Developed a complete ETL pipeline and performed EDA, correlation analysis, and segmentation using Python (Pandas, NumPy, Seaborn) to uncover insights across service factors and customer segments.
- Designed KPI-driven Tableau dashboards highlighting service performance, customer recommendation behavior, and segment-wise insights, enabling actionable business recommendations for improving customer experience.

EDUCATION

Bachelor of Technology (Artificial intelligence)

CGPA: 8/10

Newton School of Technology, Rishihood University 2024-2028

Intermediate (Class XII)

GRADE: 85%

Kendriya Vidyalaya Gomtinagar, Lucknow 2023-2024

Matriculation (Class X)

GRADE: 91%

Kendriya Vidyalaya Sitapur 2021-2022

ACHIEVEMENT

Smart India Hackathon 2025 Winner

Knight at LeetCode (Max Rating: 1917)
